About UNVEX

UNVEX is a comprehensive event, born in 2010, which has demonstrated its ability to generate business in the eight editions held in Europe plus the four held in Latin America. Designed and developed by IDS, the largest content provider in dual technologies markets, including www.infodron.es, the most widely read media in the drone sector. A Technical Committee selects the content of the conference series made up of qualified representatives. The exhibition is the largest ever held in Spain and its demonstrations, pioneering at the time, include all types of remotely unmanned systems.
